April 26, 2016

Location: Palm Beach, FL

Victim(s): Tricia Gayle Todd 30

Attacker(s): Steven Williams

Description: Williams strangled Tricia, his ex-wife, before trying to get her to give up her email password. When she wouldn't do anything but scream, he beat her with a club, before strangling her to death. He then took her body to a remote site, where he cut it up with a chainsaw, before putting the pieces in an acid filled container and burying it. When asked why he killed her, he said he was tired of paying child support, wanted full custody of their daughter, and was angry about being "disrespected" on Skype calls with their daughter.
